PROFESSIONAL EXPERIENCE

Freelance Software Developer | Remote | Dec 2025 – Present

- Led client discovery to clarify business objectives, user workflows, technical needs and solution requirements, translated findings into practical implementation approaches.
- Designed and delivered web solutions with JavaScript, TypeScript, React, Next.js, REST APIs, authentication and third-party integrations, while explaining functionality and value to technical and non-technical stakeholders.
- Integrated and tested external services, resolved authentication/configuration/deployment issues and supported PostgreSQL/MySQL data models, Prisma, Docker and CI/CD workflows.
- Gathered feedback, refined requirements and produced technical documentation and knowledge-transfer materials.

Software Developer | Excelz Ghana | May 2025 – Nov 2025

- Translated business and operational requirements into functional solutions; investigated application issues and communicated clear technical options to stakeholders.
- Supported solution demonstrations and technical explanations while developing web applications, integrating APIs, testing functionality, and resolving integration/configuration issues.
- Used Git-based workflows and supported deployment and environment configuration.

Software Engineering Programme | ALX Africa | Mar 2024 – Nov 2024

- Built practical experience converting user requirements into solutions involving REST APIs, authentication, data validation, and third-party integrations.
- Applied testing, debugging, root-cause analysis, documentation, demonstrations, version control, databases, and deployment fundamentals.

PROJECT MANAGER | D-28 Logistics | Abuja, Nigeria | Hybrid | Apr 2022 – Feb 2024

- Coordinated logistics and operational projects, aligning deliverables, timelines, stakeholder and business requirements to support successful project execution.

SELECTED TECHNICAL PROJECTS

AI Travel Assistant | AI-powered travel solution

- Built a travel recommendation solution for flights, hotels, and trips based on budget and preferences; integrated an API proxy, payment functionality, authentication/configuration, and Vercel deployment for product demonstrations.

Recipe Finder | Recipe discovery solution

- Designed a user-focused recipe discovery solution using external APIs, emphasizing usability, clear information presentation, and demonstrable product value.
